

Write in C-2.0 (“GDB”)

Copyright© 2023 Douglas Landau All rights reserved under the [Rug License](#)

These lyrics are intended to provide an update to the song “Write in C”, which seems to be unchanged since C was written in K&R style.

When you find your code in tons of trouble
Take this bit of advice from me
Open up your program
In GDB-eeee

GDB, GDB, GDB, yeah, GDB!
Set yourself a breakpoint
In GDB-eeee

As the deadline fast approaches
And you're still trampling memory
Set yourself a watchpoint
And then say pee-eeee

GDB, GDB, GDB, yeah, GDB!
Get yourself a stacktrace
With GDB-eeee
